Experience

Frontend Developer | 10xGrowth

- Building and maintaining user-friendly, responsive web interfaces using **React.js** and **Tailwind CSS**.

- Collaborating closely with design and backend teams to implement responsive features and ensure seamless **API integration**.

Education

Bachelor of Engineering (B.E.), Computer Science & Engineering
Universal College of Engineering & Technology, University of Mumbai 2022 – 2026

Projects

EZYRIDE – MERN Stack Ride Sharing & Utility Platform

- Developed a full-stack ride sharing platform using MongoDB, Express.js, React.js, Node.js (MERN stack).
- Implemented user authentication system (registration, login, logout, profile management).
- Designed a dynamic pricing system where drivers set ride costs.
- Built a scalable architecture to support future enhancements like in-app chat, payment gateway integration, and ride history.
- Focused on responsive UI/UX for smooth ride posting, acceptance, and tracking.

Mera Pustak – Online Study Material Platform

- Developed a front-end web application named Mera Pustak for organizing and accessing study resources.
- Designed a digital library providing books of various types and subjects.
- Implemented standard-wise categorized notes for easy navigation and study.
- Integrated online lecture section for video-based learning.

SASTAMAAL – MERN Stack E-Commerce Platform

- Developed a full-stack e-commerce website using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication system with registration, login, and logout functionality.
- Designed a store creation feature, allowing users to sell new or used products.
- Enabled product listing, buying, and selling workflows with secure transaction flow.
- Focused on creating a responsive UI/UX for seamless browsing across devices.
